Instructions cont:

- + Now, you need to cut off the pieces. The second picture shows me cutting and mitering. I also cut off just a little bit of the two tabs.
- + Adding adhesive: On the outside of the front, add Tear and tape to the big tab. Now flip over the first big bottom tab and add Tear and tape. Follow the pictures below.
- + I found these cute tiny Tic Tac boxes on Amazon. They are so Tiny!
- + To finish-You can always add embellishments.
- + Have fun making and have fun giving.

Remove the tape backing and put it together. Add a little Tic Tac Container and gently squeeze the box together from the side. I would Staple or find some clips to hold it together as I did.

TA-DA! So cute.
